

FALAK '26 — DESIGN REFERENCE

For the organizing committee, media, graphic design, and UI/UX teams — read this before starting any asset.

THE BIG IDEA

Falak has two sides — Sports and Culture. They share one background color and one font logic, but each has its own energy, palette, and reference pool. This file tells you what each side looks like, where to find inspiration, and exactly which colors and fonts to use.

SPORTS SIDE

Vibe: Fast, gritty, competitive. Vintage varsity/skatewear energy fused with modern esports polish.

Design trends to use

- Vintage varsity / letterman patches
- Streetwear stamp logos
- Technical utility labels (Arc'teryx / Nike ACG style tiny tags)
- F1 broadcast graphics — timing towers, driver cards
- Player / trading card layouts (FIFA, NBA cards)
- Brutalist grid posters
- Stadium signage / scoreboard lettering
- Esports HUD elements — corner brackets, glitch text, stat blocks

Inspiration sources

Nike, Arc'teryx, F1, FIFA Ultimate Team / NBA cards, vintage American varsity culture, skatewear brands, stadium signage, esports broadcast overlays.

CULTURE SIDE — DESI MAXIMALISM

Vibe: Elegant, vibrant, festival-scale. Desi maximalism filtered through festival polish and dusk-sky gradients — ornate linework meets street-level color and celebration.

Design trends to use

- Jaali work — Mughal/Rajasthani perforated latticework, used as fine linework for dividers/borders/texture
- Ganjifa card layouts — traditional Indian playing-card format, for illustrated event/artist stat cards
- Truck art frame stamps — ornate Indian truck/rickshaw art styling, for badge/stamp marks
- Vintage Bollywood poster grain — hand-painted lettering texture, halftone print grain
- Kite motif — colorful diamond shapes and string-lines, our direct tie to "Falak" (sky)
- Gradient-wash dusk backdrops — soft violet-to-plum gradients, festival evening light

Inspiration sources

Vintage Bollywood hand-painted cinema posters and lobby cards, truck/rickshaw art (India-wide), jaali/latticework from Mughal and Rajasthani architecture, Ganjifa playing cards (Mysore/Odisha tradition), Makar Sankranti kite festival photography, contemporary "desi maximalism" designers on Instagram/Behance.
